The Cyclopædia; Or, Universal Dictionary of Arts, Sciences, and Literature

The Art of Love tells the stories of the most fascinating couples of the art world, exploring the passionate, challenging and loving relationships behind some of the world's greatest works of art. From Frida Kahlo and Diego Rivera to Joseph Cornell and Yayoi Kusama, Josef and Anni Albers to Gilbert & George – Kate Bryan delves into the formation, and sometimes breakdown, of each romance, documenting their highs and lows and revealing just how powerful love can be in the creative process. Whether long-lasting, peaceful collaborations, or short-lived tumultuous affairs, The Art of Love opens the door on some of the greatest love stories of the twentieth century. The relationships: Francoise Gilot & Pablo Picasso; Frida Kahlo & Diego Rivera; Carl Andre & Ana Mendieta; Christo & Jeanne-Claude; Robert Delaunay & Sonia Delaunay; Lee Krasner & Jackson Pollock; Barbara Hepworth & Ben Nicholson; Georgia O'Keeffe & Alfred Stieglitz; Lee Miller & Man Ray; Max Ernst & Dorothea Tanning; Jasper Johns & Robert Rauschenberg; Elaine de Kooning & William de Kooning; Maria Martins & Marcel Duchamp; Hans Arp & Sophie Taeuber-Arp; Raoul Hausmann & Hannah Hoch; Josef Albers & Anni Albers; Gwendolyn Knight & Jacob Lawrence; Kay Sage & Yves Tanguy; Nancy Holt & Robert Smithson; Marina Abramovic & Ulay; Gilbert & George; Joseph Cornell & Yayoi Kusama; Carroll Dunham & Laurie Simmons; Camille Claudel & Auguste Rodin; Maud Hunt Squire & Ethel Mars; Frances Loring & Florence Wyle; Alexander Rodchenko & Varvara Stepanova; Niki de Saint Phalle & Jean Tinguely; Leon Golub & Nancy Spero; Lili Elbe & Gerda Wegener; Bernd Becher & Hilla Becher; Emilia Kabakov & Ilya Kabakov; Tim Noble & Sue Webster; Idris Khan & Annie Morris.

The first transnational history of photography's accommodation in the art museum

Photography was long regarded as a "middle-brow" art by the art institution. Yet, at the turn of the millennium, it became the hot, global art of our time. In this book—part institutional history, part account of shifting photographic theories and practices—Alexandra Moschovi tells the story of photography's accommodation in and as contemporary art in the art museum. Archival research of key exhibitions and the contrasting collecting policies of MoMA, Tate, the Guggenheim, the V&A, and the Centre Pompidou offer new insights into how art as photography and photography as art have been collected and exhibited since the 1930s.

Moschovi argues that this accommodation not only changed photography's status in art, culture, and society, but also played a significant role in the rebranding of the art museum as a cultural and social site.

Written by a well-respected author and practitioner in the field of art therapy, A Guide to Art Therapy Materials, Methods, and Applications is an innovative, comprehensive text that guides readers in how to use basic to advanced art materials and methods in a wide range of clinical settings. Through the lens of both developmental stages and assessment, the book offers practical, step-by-step instructions to incorporate these materials and methods into therapeutic work with clients of all ages and populations. In addition to such classic tools as drawing, paints, pastels, and clay, coverage of materials and special topics extends beyond the existing literature to include glass, knitting, quilting, wood burning, felting, digital applications, phototherapy, byproducts, and more. Unlike previous guides, this book specifies population benefits and contraindications for each material and technique. This research-based guide for using art materials in a safe and effective manner will be a welcome resource for students, seasoned art therapists, and mental health counselors.

Create beautiful fused glass table lamps for your home. This book contains fourteen designs for fused glass table lamps. All are shown in color pictures and include detailed fusing and assembly instructions and materials lists. These lamps can also be used as wall sconces with the purchase of a wall sconce mounting kit. All the lamps have been created using System 96 glass and include glass selections recommended by the designer. The lamp designs in this book use a 9”x8”x3 3/4” wall sconce mold, such as the Future Forms round sconce mold WC40. Included are detailed instructions on how to modify the designs for molds of other dimensions. Mood lamps are easy to make and bring elegance to any style of home decor. These lamps are perfect for anyone who has a basic knowledge of fusing and is looking for new creative projects.

A revered classic of American design delights anew with the freshness and ingenuity of its approach. Bradbury Thompson (1911-1995) remains one of the most admired and influential graphic designers of the twentieth century, having trained a generation of design students while on the faculty of the Yale School of Art for more than thirty years. The art director of Mademoiselle and design director of Art News and Art News Annual in the decades after World War II, Thompson was also a distinguished designer of limited-edition books, postage stamps, rationalized alphabets, corporate identification programs, trademarks, and sacred works (most notably the Washburn College Bible). Thompson also designed more than sixty issues of Westvaco Inspirations, a magazine that was published by the Westvaco Corporation and distributed to thousands of printers, designers, and teachers to show the range and versatility of printing papers. Thompson was especially revered for his ability to adapt classic typography for the modern world. Bradbury Thompson: The Art of Graphic Design is a landmark in the history of fine bookmaking. First published by Yale University Press in 1988 and designed by Thompson himself, it was praised by the New York Times as a book in which “art and design are gloriously and daringly mixed.” Original texts by the author and other notable designers, critics, and art historians, including J. Carter Brown, Alvin Eisenman, and Steven Heller, explore Thompson’s methods and design philosophy, and a newly commissioned afterword by Jessica Helfand attests to the enduring importance of his work. Both a retrospective and a manifesto, the book surveys Thompson’s timeless contributions to American graphic design, including his experimental work and his work in magazines, typography, books, simplified alphabets, and contemporary postage stamps. Published for the first time in paperback, this classic text is now available for a new generation of designers and students.

A diverse set of contributions to the expanding field of ecocritical studies. Seeking a broad reexamination of visual culture through the lenses of ecocriticism, environmental justice, and animal studies, this compendium offers a diverse range of art-historical criticism formulated within an ecological context. Picture Ecology brings together scholars whose contributions extend chronologically and geographically from eleventh-century Chinese painting to contemporary photography of California wildfires. The book's fifteen interdisciplinary essays provide a dynamic, cross-cultural approach to an increasingly vital area of study, emphasizing the environmental dimensions inherent in the content and materials of aesthetic objects. Picture Ecology provides valuable new approaches for considering works of art in ways that are timely, intellectually stimulating, and universally significant. With contributions by Alan C. Braddock, Maura Coughlin, Rachael Z. DeLue, T. J. Demos, Mónica Domínguez Torres, Finis Dunaway, Stephen F. Eisenman, Emily Gephart, De-nin D. Lee, Gregory Levine, Anne McClintock, James Nisbet, Andrew Patrizio, Sugata Ray, and Greg M. Thomas.

The Art-union

The go-to reference that covers the basics of setting up a studio, three popular techniques for creating glass art, and projects that will challenge you. The Glass Artist's Studio Handbook offers readers a comprehensive and accessible guide to not only the nuts and bolts of this perennially popular craft but insight into the artisan crafter's lifestyle. Our book offers much, much more than "just projects"—it will fast become the definitive "bible" for all home crafters. Many glass art how-to books on the market provide precise patterns and instructions for projects that are fairly traditional in technique, materials and style. Completing a project from those books leaves you with a piece that is ideally identical to what the author created—and to what every other student using the book created. Many books are strong in the basics but do not do enough to challenge us to stretch our imagination, experiment with new styles, and explore materials. Readers want creative challenge and stimulation, and Quarry delivers with this complete glass art curriculum.

Moving Pictures

This title was first published in 2003. Problem pictures were very popular during the Edwardian period. These pictures invited multiple interpretations of modern life and were often slightly risqué. Pamela Fletcher explores how these works of art engaged with questions of gender, sexuality and identity during their heyday.

The purpose of this book is to provide an overview of basic image fusion techniques and serve as an introduction to image fusion applications in various fields. It is anticipated that it will be useful for researchers to capture recent developments and to spark new ideas within the image fusion domain. With an emphasis on both the basic and advanced applications of image fusion, this 12-chapter book covers a number of unique concepts that have been graphically represented throughout to enhance readability, such as the wavelet-based image fusion introduced in chapter 2 and the 3D fusion that is proposed in Chapter 5. The remainder of the book focuses on the application-oriented image fusions, which cover the areas of medical applications, remote sensing and GIS, material analysis, face detection, and plant water stress analysis.
